

## New One Globe Kids comes with FREE Education Toolkits

**New York, USA – October 28, 2016** – Globe Smart Kids is excited to let you know that the One Globe Kids materials have been updated to meet the needs of even more teachers around the world.

In the Apple app store you will now find two apps:

- One Globe Kids - Friends Around the World: free to download, including 1 friend: Valdo in Haiti. More friends available as in-app purchase (IAP) for \$1.99 each.
- One Globe Kids - All Friends: purchase for \$9.99 including all 9 friends currently available and all future friends will be added for free. Great for schools who can't make IAPs and children who want to visit all friends at once!

Via the website, you can sign up to the One Globe Kids Online Friends platform, access Valdo in Haiti for free and purchase more friends for \$1.99 each.

*"My kids all loved learning about how Aji plays in Indonesia. I heard some of my kids even played squat tag at recess! We all played pingsut (Indonesian rock-paper-scissors) in class as well."* - Hallie R., Global Connections Teacher

One Globe Kids Education Toolkits are now available at no cost via the website, complimenting the One Globe Kids stories and interactive features. All you need is a computer, internet and an email address. The Toolkits include:

- **Teacher Guide:** in-depth support to integrate One Globe Kids materials and get students moving and thinking about global issues while teaching Language Arts and/or Social Studies (English, History, Geography, Citizenship, Humanities).
- **Story Behind the Story:** details from our "making-of" adventure in each country.
- **Activities:** unique activities that give students a global perspective. Each country includes Culture, Math and Writing lessons as well as fun Experience and Taste activities.
- **Read, Listen, Speak:** questions to help students recall key details from the stories and relate them to their own lives.
- **Discussion Themes:** global themes that encourage conversation in the classroom and dig deeper into similarities and differences around the world for a specific topic, such as water, transportation, safety and food.

Great tools to bring the world into your classroom and to teach global 21<sup>st</sup> century skills.

*"I found that practically all 3rd grade ELA standards were supported in the lessons. This makes One Globe Kids a great interdisciplinary study that integrates Common Core with other content areas infusing a global perspective to 21st century skills."* - Margaret P., 3rd grade teacher

Go online now and sign up! Five Education Toolkits are ready to use: My Haiti, My Burundi, My Netherlands, My NYC and My Indonesia.

### About Globe Smart Kids

Globe Smart Kids ([www.globesmartkids.org](http://www.globesmartkids.org)) is a 501(c)3 non-profit and the maker of One Globe Kids education materials ([www.oneglobekids.com](http://www.oneglobekids.com)) which are created to make the foreign feel familiar by letting young children explore the world from the safety and comfort of their living/class room. With new technology, One Globe Kids helps them move beyond prejudice towards openness, mutual liking and friendship with those from outside their daily bubble, both near and far.

Help us spread the news: New @OneGlobeKids update comes with FREE Education Toolkits #friendsaroundtheworld #classroomapp #globaled
